

Long Division Evenings at the Gateway

In November 2016, Pi Theatre will present the world premiere of Peter Dickinson's new performance script, *Long Division*, at the [Gateway Theatre](#) in Richmond.

Long Division is a multimedia, physical theatre piece about the mathematics of human connection. Peter will be working directly with Pi to see how this work can be translated from the page to the stage.

Long Division focuses on 7 characters linked - sometimes directly, sometimes more obliquely - by a sequence of events. These characters offer lessons on number theory, geometry and logic, while revealing aspects of their inner lives, and collectively the nature of their relationships to one another.

Dates: Nov 17, 18, 19, 22, 23, 24, 25 and 26 at 8pm

Location: Gateway Theatre, 6500 Gilbert Road, Richmond

Box Office: [Online](#) or by phone at 604.270.1812

Speak Up! will be held on November 22nd following the evening performance. *Speak Up!* is your chance to get talking. Stick around after the performance for a chance to discuss it with each other, ask questions, offer insights and collectively enhance your understanding and experience of the play.

A Talk Back will take place with the actors on November 24th following the evening performance.
